

Carriwell Organic Cotton Belly Binder

Abdominal wrapping or binding is common practice in many cultures. Compression of the abdomen encourages the stomach to return to its original shape; improves posture; supports your lower back and tightens and shapes your midriff making you slimmer and confident. The soft breathable organic cotton is ideal for wearing after a c-section and the wide Velcro band allows for maximum adjustability and comfort.

Kerri: Comfy! Really helped post C-section #3! The support was soooo helpful in getting me mobile again! :) Really wish I would have known about these kind of things with the 1st 2 sections!

Leah: This was a lifesaver after my abdominal surgery! My only regret is that I didn't buy it sooner.
